Policy

MR Group is committed to environmental sustainability and continuous improvement in waste management. We recognize our responsibility to minimize environmental impact and support our clients in achieving their waste reduction and recycling goals. Our approach views waste as a valuable resource, prioritising sustainable management practices in compliance with ISO 14001:2015 Environmental Management Systems.

Principles of Waste Management

MR Group shall implement the following waste management practices at all operational locations:

Waste Hierarchy Compliance

- All waste shall be managed in accordance with the Waste Hierarchy: Reduce, Reuse, Recycle, Recover, and Responsible Disposal.
- Reduction is the most preferred option, and responsible disposal is the least favourable.

Proper Waste Storage

- Waste shall be stored in designated, clearly labelled, and appropriate containers to prevent material escape.

Approved Waste Contractors

- A list of approved and authorised waste disposal contractors shall be maintained.
- All contractors must provide valid licenses and permits.
- Waste disposal contractors shall undergo evaluations to ensure compliance with legal and environmental standards.

Compliance and Continuous Improvement

- MR Group shall comply with all applicable waste management regulations and industry best practices.
- Regular audits and performance reviews shall be conducted to enhance waste reduction strategies.
- Employees and contractors shall receive appropriate training and awareness to ensure adherence to waste management policies.

This policy shall be reviewed periodically to ensure its continued effectiveness and alignment with regulatory and client requirements.
